

Hi, I'm IFEOLUWA ADENIRAN.

Software Engineer | Frontend Developer | Network Engineer

+2348144992473 deniranifeoluwa@gmail.com Lagos Nigeria

PERSONAL SUMMARY

Versatile Software Engineer with hands-on experience in frontend development, automation, and network support. Skilled in JavaScript, React, and Next.js, with a strong focus on building responsive, user-friendly web applications. Proven track record of contributing to AI-powered fintech platforms, developing automation tools to improve workflows, and delivering reliable technical support in fast-paced environments. A collaborative problem solver, passionate about clean code, performance optimization, and enhancing both product and user experience.

SKILLS

- React.js and Next.js
- Responsive design
- Agile collaboration
- RESTful API integration
- Automation scripting
- Technical support
- Network troubleshooting
- Documentation preparation

EXPERIENCE

Frontend Developer

02/2025 - Current

ReconXi Remote

- Developed a financial reconciliation web application using Next.js and Tailwind CSS as part of an early-stage MVP, supporting transaction validation during testing.
- Translated Figma designs into responsive, accessible UI components, improving cross-device compatibility, and user experience.
- Integrated frontend interfaces with backend APIs to display real-time financial data, such as transaction records and reports.
- Implemented secure user authentication and real-time form validation to ensure smooth user interactions, and prevent common input errors.
- Participated in design discussions, code reviews, and agile ceremonies to support collaboration and meet sprint goals within a remote, cross-functional team.
- Refactored components for better performance and code reusability, which helped improve load times and maintainability.
- Managed code changes using Git and GitHub, contributing to feature branches, pull requests, and peer code reviews in an active development environment.

Network Support Engineer

11/2023 - Current

MTN (Contract) Lagos, Nigeria

- Provided first-line technical support for network-related issues, resolving the majority of cases during the initial contact, and helping reduce overall resolution time.
- Monitored network performance using diagnostic tools to identify and escalate anomalies before they could cause service disruptions.
- Created and maintained detailed incident reports and support tickets, helping to improve knowledge sharing and reducing repeat troubleshooting efforts.
- Worked hands-on with network protocols and configurations, including TCP/IP, DNS,

- DHCP, and VPN, to assist with efficient problem diagnosis and resolution.
- Collaborated closely with internal engineering teams and external vendors to ensure smooth issue escalation and timely problem resolution.

Tools Automation Engineer
Huawei RNOG Lagos, Nigeria

05/2021 - 11/2023

- Identified opportunities for automation across multiple departments, helping to reduce time spent on repetitive tasks, and improving overall efficiency.
- Designed and maintained JavaScript-based automation tools with user-friendly interfaces, built using HTML, CSS, and JavaScript.
- Integrated third-party APIs to enable real-time data synchronization between internal systems and external platforms, cutting down on manual data entry errors.
- Automated routine tasks such as data entry, data retrieval, and report generation, are used to streamline workflows and minimize human error.
- Collaborated with cross-functional teams to gather automation requirements, and deliver tailored solutions that matched specific business needs.
- Created and executed test cases to validate automation scripts, improving issue detection before deployment.
- Provided ongoing maintenance and support for automation tools, resolving issues and optimizing performance to reduce downtime.

Software Developer
GGMSS Technology Kogi, Nigeria

11/2019 - 04/2021

- Developed and optimized responsive web applications using HTML, CSS, JavaScript, and integrated APIs for dynamic functionality.
- Worked closely with designers using Figma to translate design concepts into user-friendly, functional web interfaces.
- Improved user experience by applying effective design principles, and optimizing application performance across devices.
- Identified and resolved performance bottlenecks in existing applications, helping to improve overall system efficiency.
- Supported testing and debugging processes to ensure web applications adhered to secure communication standards.
- Reviewed project requirements, and collaborated with stakeholders to align technical solutions with user needs and business goals.

EDUCATION

Bachelor of Science: Computer Science
Ajayi Crowther University, Oyo, Nigeria

07/2019

CERTIFICATIONS

- [Professional Development Certification](#), ALX, 2025
- [HNG Tech Internship – Finalist Certificate](#), HNG Tech, 2025
- [Software Engineering Certificate](#), ALX Holberton School, 2023 - 2024
- [Responsive Web Design Certification](#), FreedCodeCamp, 2022

KEY ACHIEVEMENTS

- Made a key contribution to the development of an AI-powered financial reconciliation web app during the HNG Internship, using Next.js and Tailwind CSS, and collaborating with a 10+ cross-functional team to deliver a functional MVP used in real customer demos
- Automated internal workflows at Huawei are reducing manual data entry and reporting time by 40% through custom tools developed with HTML, CSS, and JavaScript, significantly boosting team efficiency
- Resolved 90% of assigned network issues within SLA at MTN Nigeria by providing first-line technical support and monitoring network performance, directly improving customer satisfaction, and service reliability
- Spearheaded a team of four for the ALX SE Graduation Project, contributing to key components of the development, and ensuring the project was completed within the submission deadline

VOLUNTEER EXPERIENCE

Frontend Facilitator at ExecuteTek Workshop (Jan 2024 – Present), mentoring students and career switchers in HTML, CSS, and JavaScript fundamentals through hands-on coding sessions, real-world project guidance, and practical web development insights to boost engagement and learning

HOBBIES AND INTERESTS

- Artificial Intelligence (AI)
- Coding Challenges
- Mentorship
